Prepare for Your Delivery

Once your cabinets have been ordered it's important to prepare for your delivery. We are curbside delivery only. We will deliver to garage, carport or curb. We DO NOT enter the premises. It is a good idea to clear an area in your garage or carport to keep the cabinets dry and safe from damage. If your delivery location has limited access such as: cannot accommodate a delivery truck or does not have a garage or carport, you can also select the service to have your order delivered to the first dry level of your home or an alternate location. Our intent is to make the delivery of your cabinet order go as smoothly as possible.

Standard Lead Time

Allow for one (1) week of production and up to two (2) weeks for delivery depending on where you live. Depending on your location and delivery restrictions additional time may be required.

Restricted Area Delivery — Call for Quote

If your job site has additional restrictions and requires custom delivery such as: ferry or bridge toll, located in remote rural, densely urban, Restricted Delivery Access will have additional charges and may require extended lead times for delivery based on your location circumstances and available delivery agent. Customer Service will contact you within two (2) business days of order payment to determine your delivery location access.

Rush & Replacement Orders

The 3 Day Rush program is limited to “off the shelf” parts, including fillers, moldings, hardware, accessories and parts that do not require manufacturing. There are no limitations on quantity. Shipping charges may apply. Cabinetry items may not be available through this rush program. Please consult with your customer service for availability because the items may not be in stock.

I have read and understand these delivery policies.
